Dr. Hans Peterson  
Voluntary Executive Director  
Safe Drinking Water Foundation  
912 Idylwyld Dr. North  
Saskatoon, SK  
S7L 0Z6

Dear Dr. Peterson:

Thank you for your letter regarding safe drinking water.

We all have a role to play in protecting our drinking water and the Department of the Environment has a number of policies and programs in this area. Therefore, I shall share your correspondence with our Minister of the Environment.

In addition to the protection of water, the Province of New Brunswick is committed to doing its part in efforts to reduce greenhouse gas emissions.

The New Brunswick Climate Change Action Plan is an important step to address the many broad and interrelated aspects of climate change in this province. It is an ambitious plan that outlines our collective vision for reducing provincial greenhouse gas emissions and managing our adaptation to climate change impacts through a series of targets and policy actions as well as engagement of stakeholders and the public. In these ways, this plan charts our path to sustainability in a changing climate.

Please take the opportunity to review our plan at [www.gnb.ca](http://www.gnb.ca).

Yours sincerely,

Hon. John W. Foran  
Minister of Public Safety and Solicitor General

JWF/ph

c.c.: Hon. Roland Haché, Minister of Environment and Minister responsible for the Northern New Brunswick Initiative
