Dear Advanced Aboriginal Water Treatment Team:

Re: Safe Drinking Water Foundation Accomplishments

SaskWater congratulates the Safe Drinking Water Foundation for its accomplishments in ten years of operation, working to educate others about sustainability.

The Safe Drinking Water Foundation's activities are important to Saskatchewan residents and SaskWater would be happy to consider sponsoring your annual conference when it is presented in Saskatchewan.

You may be interested to know that SaskWater has engaged the expertise of Dean Bellegarde as Aboriginal Advisor to the President of SaskWater. Mr. Bellegarde will be attending your upcoming conference to seek information on water issues from the aboriginal perspective.

We wish you the best of luck in the future.

Yours sincerely,

Stuart Kramer
President
