Re: External Oversight for the Community Framework for Safe Drinking Water  
Dear Sue,

Thank you for inviting CWQA to provide an external evaluation of the Community Framework for Safe Drinking Water initiative of the Safe Drinking Water Foundation. CWQA would be proud to conduct such an evaluation as it fits very closely to the CWQA mission:

"Promotes the individual right to quality water; educates water quality professionals; promotes the growth of the water quality improvement industry; serves as a unified voice in government and public relations; provides a role in consumer education". CWQA believes that in this age of rapid development, education often spells the difference between progress and stagnation. CWQA provides close contact with federal regulatory and legislative officials. We not only warn of impending legislation, we act before laws are passed. We represent the industry before regulatory agencies such as Health Canada, Industry Canada and provincial ministries, such as Environment, Health and Consumer and Commercial Relations.

The association supports and endorses SDWF in educating consumers on quality water and we are proud to be a partner in this endeavour. If you have any questions or concern, please feel free to contact me.

Regards,

A handwritten signature in black ink, appearing to read "Kevin Wong", is placed over a light grey dotted rectangular background.

Kevin Wong
