Dear Ms. Peterson:

Thank you for your letter of October 6. I appreciate learning about your concerns regarding the use of pesticides, and your wish to have Saskatchewan Environment include steps to reduce children's exposure to pesticides in the Green Strategy.

I understand that you have also written the Honourable David Forbes, Minister of Environment, and that the Minister will be responding directly to you on behalf of Government. You can expect a reply in the near future.

Again, thank you for writing.

Yours sincerely,

Lorne Calvert
Premier

cc: Honourable David Forbes
Minister of Environment
