Dear Dr. Peterson,

Thank you for your letter inquiring about Bill C-276 and providing me with the five critical points you wish to be implemented to ensure that all drinking water is safe.

As this matter is best addressed by the Honourable John Nilson, Q.C., Minister of Environment or one of his officials, I have forwarded a copy of your correspondence to him for consideration and response.

Again, thank you for sharing your concerns with me.

Sincerely,

A handwritten signature in blue ink that reads "Sandra Morin".
