Dear Members,

Thank you for your letter of March 16, 2009, and the bottle of drinking water. As a Member of Parliament and a physician, one of the concerns I have is the inability for all Canadians to have access to safe drinking water.

We can be proud of what SDWF is achieving but, of course, there is always much more that needs to be done and much more we can do. On behalf of the residents in my Riding of Vancouver Centre, I appreciate your commitment to rendering safe drinking water for all Canadians.

Sincerely,

Hon. Dr. Hedy Fry, P.C., M.P.
