To Whom It May Concern,

Green Street is a program that links schools in Canada to reputable Environmental Education organizations across the country. Programs that are selected as "Green Street Programs" must meet a standard of excellence and strive to actively engage youth in environmental stewardship.

The Safe Drinking Water Foundation offers the following Green Street approved programs to schools across the country:

- *Operation Water Flow* for grades 6 through 12
- *Operation Water Pollution* for grades 5 through 12
- *Operation Water Drop* for grades 4 through 12
- *Operation Water Spirit* for grades K through 12
- *Operation Water Health* for grades 5 through 12

As a Green Street approved program provider for a number of years, the Safe Drinking Water Foundation continues to develop relevant programs that are curriculum-linked and of interest to teachers across the country. We are pleased with the evaluation results we receive every year and the Safe Drinking Water Foundation has been able to meet all contractual requirements with Green Street in a very timely manner.

We continue to support the Foundation and applaud their initiatives as they strive to positively impact classrooms across this country.

Sincerely,

Pauline Théoret  
Green Street Coordinator
