

Problem-Based Learning Teamwork Reflection Questions

1. Describe a specific example of something you learned from another team member when doing this activity. For example, this could be information that you learned, a problem-solving skill, or a teamwork skill.

2. Describe a specific example of something that your team members learned from you, that they probably would not have learned without you on their team. For example, this could be information, a problem-solving skill, or a teamwork skill.

3. Suggest one specific, practical change the team could make that would improve the team's learning, problem-solving, or teamwork skills.
