Prime Minister Justin Trudeau
House of Commons
Ottawa, ON K1A 0A6

Dear Prime Minister Trudeau,

My grade X class has spent the last few days learning about healthy drinking water. Based on what we have learned, I believe that healthy drinking water is a very important issue that the government should be focusing on.

I know there is a world-wide need to improve drinking water quality and treatment. I want there to be healthy drinking water for me when I am older.

Please keep drinking water an important part of all government discussions and policies. Do not settle for the easy path in terms of policies and standards for healthy drinking water. The more the government makes drinking water a focus, the more support they will have from the general public.

Thank you for taking the time to read my letter. I look forward to your response.

Sincerely,

(Name typed below the signature)
